

Free Carpet Clean

From an IICRC Certified Company &
Advanced National Carpet Cleaners Association Member
Capital Carpet Care Certified Carpet Maintenance Technicians

Dear Sir / Madam.

The purpose of this letter is to introduce myself and my business and show you how our unique carpet cleaning system may be able to save you thousands of pounds in carpet cleaning, maintenance and replacement costs. I would like to offer you a free carpet clean in order for you to see the results we can achieve. I am so convinced that our carpet cleaning system can save you money, enhance the appearance of your property and vastly extend the lifetime of your investment that I am willing to demonstrate the productivity and results our system can achieve with a free carpet clean.

We've helped many people in your situation overcome cleaning and maintenance problems they have lived with for years. Companies such as Hotel Missoni, The Point Hotel, The Kitchin Restaurant, Novotel and Fountain Court Apartments have discovered how our service and system cleans better than anything they've ever seen, dries quickly and also saves them money. I have enclosed a copy of a letter received from one such customer.

Benefits To You:

A Clean and Health Environment For Your Clients & Staff
We Clean Large Areas Quickly Saving You Money
Extending The Life Of Your Investment
Carpets Can Be Walked On Immediately
No Resoiling Issues

Almost everyone I contact already has a carpet cleaner that they think they're happy with, so why should you take any notice of this letter? The system we use is unique, most of the companies we clean for were happy with their existing arrangements until they saw the difference in price and appearance we can make, and were aware of the many benefits our system offers.

I'd like to meet you to discuss this further and arrange to do a free, no obligation carpet clean and demonstration on a section of carpet of your choice.

Please feel free to contact me if you wish to make an appointment to discuss how we may be able to help you and arrange your demonstration clean.

Yours faithfully

Robert Watson
